People love fresh air wherever we may be. And for that, calesas were made for us to have healthy living with the help of environment-friendly things.

Vigan offers a lot of things that surely you will miss. And while you are taking a tour in Vigan, why not try to take a ride with the calesa? Biguenos bet that you will really miss the experience.

Another one is the stores of various Vigan products. There are delicacies, handicrafts, furnitures, t-shirts with a Vigan print and those attractive products which Biguenos can be proud of.

Aside from the hospitality of the Biguenos, they are also creative. Everything in Vigan is appreciated and it should really be.

Biguenos thank the government for continuously supporting the City of Vigan which makes it one of the best cities in the Philippines. Nothing could pay the hardwork that Biguenos have in maintaining their city in the hall of fame.

Vigan City should really be called as the "Heritage City."
